

Trinity Software Center is a social enterprise committed to deliver state of the art quality software, a great user experience and excellent customer service. We build web based applications and apps for the West-African as well as European market. In addition, we deliver virtual scrum teams to IT companies in Europe and we have our own SAAS school software on the market in Ghana: [SKUUNI](#). We are a young and vibrant company with highly skilled software engineers, based in Apemso, Kumasi, close to KNUST.

We offer:

- Programming work on various levels and with various programming languages.
- An inspiring and passionate professional environment.
- Opportunities to work in international virtual scrum teams.
- Opportunities for training in IT, communication skills and personal development.
- Very good working conditions.

For a new team working for the European market we are currently hiring
